Inclusion Menu Autumn Term 2026

Rotherham Metropolitan Borough Council (RMBC) have developed an Inclusion Menu which is an Alternative Provision Directory.
The directory has a locality-based focus which makes it easier for schools to identify provision available in their area and shows information such as courses available, ages, costs and intended outcomes. The directory is not an approved list of providers, instead it offers providers who have received a visit to review their standards regarding safeguarding, health and safety, curriculum, provision, qualifications and outcomes.
Schools may investigate RMBC documents when exploring direct commissioning of alternative provision.
The responsibility for the alternative provision used rests with the school commissioning the placement.

Defining Alternative Provision
Alternative Provision must be registered settings if they cater full time for 5 or more pupils of compulsory school age,
or:
one pupil who is looked after
or
has an education, health and care plan (EHCP).

Schools should ensure that an offer from an unregistered setting is no more than 15 hours with the substantive offer provided by mainstream setting to remain within the regulations;

- School leaders should be clear on the reasons why off-site provision is the best option for the pupils concerned,
- School leaders should keep use of AP for a pupil under regular review,
- School leaders should make appropriate checks on the registration status of the provision and how that influenced their decision to use provider,
- Schools should carry out safeguarding checks on the alternative provision and continue to make checks to ensure the provision is a safe place for their pupils to attend,
- School leaders should ensure that pupils benefit from a well-planned and sequenced, well-taught, broad and balanced curriculum whilst using alternative provision,
- There should be a clear agreement on immediate reporting of attendance, safeguarding disclosures and behaviour of pupils attending provision,
- There should be clarity on how the provision promotes pupils' personal development,
- If Alternative Provision is to be considered for a pupil with an EHCP or a Looked After Child, then the relevant professional from the EHCP team or the Virtual School, must be involved.

Effective alternative provision is that which appropriately meets the needs of pupils which required its use and enables them to achieve robust educational attainment on par with their mainstream peers. All pupils must receive a breadth and balance of education, regardless of their circumstances or the settings in which they find themselves.
